

Mentored Training and Assessment

Mentor Agreement

As a mentor you will be required to complete the following processes for an individual mentee. Please note that as a Mentor you are taking the responsibility of signing this individual off as a competent Trainer Assessor, you need to be 100% confident in their standards of delivery and assessment methods before you complete and sign this form, If you feel that they need further observations or training to reach the standards expected by SLSGB, then you will need to arrange further observations of the mentee.

In your role as a mentor you will be expected to guide and support your mentee through the delivery and assessment of their desired course. By providing guidance and engaging in mentoring relationships, SLSGB Mentors can benefit SLSGB and their individual club, contributing to the future of SLSGB Training and assessment and gaining the personal gratification of helping less experienced individuals grow professionally within their SLSGB remit.

As the mentor you are required to complete the following;

- Two session observations – one for a land based session and one for a water based session (Please note that you need to see session plans for these observed sessions)
- Observe the mentee leading the assessment of a course (that they have not trained on) and then complete an Assessment decisions observation form – You need to complete this when observing your mentee as a Lead Assessor
- Complete the overleaf Mentor statement feedback form
- Return this form to SLSGB

<p>Mentor Statement</p> <p>I (Mentor Name) agree to be a Mentor for the following individual (candidate name) I can confirm that I will not sign the named candidate off as a competent Trainer Assessor until I am confident that they are competent in the standards expected by SLSGB to deliver within their desired training area .</p>	
Mentor Name:	
Mentor Signature:	
Date:	

Once this form is completed it must be sent to SLSGB for approval.

Confirmation of Competence (To be completed by your mentor)
